

Takeout Made Easier

With many restaurants being forced to switch to takeout or delivery only we know that tracking and delivery of the right orders to the right customers can be tricky.

The CT-601IIR is a standard three-inch receipt printer that can also handle self-adhesive labels. With liner-less media you can quickly convert the printer to process takeout orders faster and with improved accuracy.

- Reduced missing or incorrect orders
- Improved order accuracy
- Increased overall productivity
- Cut down on duplication with traditional receipt paper
